## INTEL & SECURITY RISK

### WHO WE ARE

Global Risk Intel is a boutique risk advisory firm providing consulting services to anticipate, assess, and advise organizations.

### WHAT WE DO

Our AI-driven methods ensure that you are always one step ahead of the game. Helping you anticipate, assess, and react to global risks quickly and effectively.

### CONCEPT

Advancing intelligence-led policing by using Artificial Intelligence to measure levels of radicalization leading to terrorism.

### SOLUTION

Use Machine Learning (ML) to trace emerging terrorism risks and help preemptive and preventive decision making.

### DATA UTILIZED

Open-source intelligence (OSINT) research, interviews, surveys, subject matter experts, web scraping, ML, Natural Language Processing, and sentiment analysis.

### METHODOLOGY

Utilizing a platform based on ML to quantify, measure, and understand threats coming from online terrorist recruitment agencies.

### APPLICATION

Transferability to governments and other authorities in areas at risk of terrorism.
